STUDENT *Career Day*

THE INTERNATIONAL SHOW CAR ASSOCIATION (ISCA) STUDENT CAREER DAY Friday, March 16, 2018

In an effort to introduce high school, vocational, and college automotive students to the aftermarket hot rod industry, the ISCA in conjunction with the I-X Piston Powered Auto-Rama have developed the Student Career Day program and Skills Competition. Student Career Day takes place at various Auto-Rama shows and other ISCA-sanctioned events throughout the United States.

Students participating in Student Career Day enter the I-X Center on Friday, March 16th before the show is open to the general public. As students arrive, they receive goodie bags, food coupons (if purchased), and a wristband that allows them free access to the show for the entire weekend. The students will attend a brief welcome reception, which includes talks by key industry representatives, renowned car builders and sponsors. After the reception, students are encouraged to walk through the show to get an up-close look at the vehicles and have an opportunity to speak with car owners and event sponsors.

THE GOALS FOR STUDENT CAREER DAY ARE AS FOLLOWS:

- Expose students to opportunities in the specialty automotive repair and aftermarket industry that SEMA calls a \$34 billion industry.
- Allow students to view the talents of the participants who have handcrafted many of the vehicles participating in the I-X Piston Powered Auto-Rama.
- Provide a forum for students to view firsthand some of North America's finest show vehicles, many of which have been featured in magazines and television programs.
- Allow the schools / students / teams to participate in and be exposed to the Hot Rodders of Tomorrow engine rebuilding competition.
- Provide an opportunity for students to visit with many of the car owners and builders who have painstakingly completed their projects.
-

SUMMIT RACING EQUIPMENT PEDAL CAR CONTEST

The 2018 show will take place March 16 – 18, 2018 at the I-X Center with 'Auto-Rama Rolls Then Cleveland Rocks' as the theme. The Auto-Rama will go bumper to bumper with the Rock and Roll Hall of Fame Induction Ceremony by welcoming the event back to Cleveland when it returns on April 14, 2018.

Qualifying schools will be given one of eight Hot Rod Pedal Cars, P/N EET-9705, from Genuine Hotrod Hardware, Inc., as part of the Summit Racing Pedal Car Contest for their students to customize and show at the I-X Piston Powered Auto-Rama, March 16 – 18, 2018. The object is to create an award winning pedal car, fully finished and painted. Schools can pick any one of these themes for this year's contest:

- AUTO-RAMA ROLLS, THEN CLEVELAND ROCKS
- IF A PISTON MAKES IT GO, IT'S IN THIS SHOW
- FORGED IN CLEVELAND
- MADE IN THE USA
- LONG LIVE CARS

The only other requirement is that the original drivetrain components must be included. Body style, interior, wheel base and wheels can all be customized.

To participate, each school is required to complete and sign the Application Form. Once approved, a Pedal Car will be shipped to the school on or about October 16, 2017. Pedal cars must be complete and ready to display at the 2018 I-X Piston Powered Auto-Rama at the I-X Center on Thursday, March 15, 2018.

A display area will be set up for the eight (8) competing pedal cars, but schools are encouraged to plan for a creative and attractive showing of their project. This could include pictures, video, or other items that will enhance the presentation. Customized pedal cars will be judged by ISCA staff and will be based on creativity, quality of workmanship, overall appearance, attention to detail, and representation of the theme.

Customized pedal cars will be auctioned off on Saturday at the Filling Station during the Saturday Awards Ceremony. Proceeds will be donated to the automotive program at the school that built the pedal car. The winners from 2017 included:

Berea-Midpark High School	1st Place	\$150
Euclid High School	2nd Place	\$95
C. D. Hylton Senior High Woodbridge, Virginia	3rd Place	\$160
C. D. Hylton Senior High Woodbridge, Virginia		\$160
Lorain County JVS		\$115
Bedford High School		\$150
Portage Lakes Career Center from Uniontown, Ohio		\$100
Cuyahoga Valley Career Center		\$610
*Cuyahoga Valley Career Center		\$2,200

*The Cuyahoga Valley Career Center customized a 1955 Pedal Car to honor John Shaprio from the Crusin' Times. This eight car was auctioned off and the proceeds were donated to the John Shaprio Scholarship Fund.

Berea-Midpark High School: 1st Place Entry

1955 Pedal Car to honor John Shaprio

THE HOT RODDERS OF TOMORROW ENGINE CHALLENGE

Hot Rodders of Tomorrow is a STEM (Science, Technology, Engineering, and Math) Team Activity for your High School CTE Class. Teams of 5 High School Students disassemble and reassemble a Small Block Chevy 350 Engine. The event is timed and judged with time penalty applied for mistakes. Any team that qualifies with a time of 33 minutes or faster with time penalties added will be qualified for the 2018 Hot Rodders of Tomorrow Dual Championship at the 2018 SEMA Show (Las Vegas, NV) or 2017 PRI Show (Indianapolis, IN). Hot Rodders of Tomorrow has awarded over \$20 million in scholarship opportunities thanks to our college partners like OTC.

To sign-up go to www.hotroddersoftomorrow.com

There will be 2 days of competitions:

1. Saturday, March 17, 2018 (High School Students)
2. Sunday, March 18, 2018 (High School Students)
