STUDENT Career Day

THE INTERNATIONAL SHOW CAR ASSOCIATION (ISCA) STUDENT CAREER DAY Friday, March 15, 2019

In an effort to introduce high school, vocational, and college automotive students to the aftermarket hot rod industry, the ISCA in conjunction with the I-X Piston Powered Auto-Rama have developed the Student Career Day program and Skills Competition. Student Career Day takes place at various Auto-Rama shows and other ISCA-sanctioned events throughout the United States.

Students participating in Student Career Day enter the I-X Center on Friday, March 15th before the show is open to the general public. As students arrive, they receive goodie bags, food coupons (if purchased), and a wristband that allows them free access to the show for the entire weekend. The students will attend a brief welcome reception, which includes talks by key industry representatives, renowned car builders and sponsors. After the reception, students are encouraged to walk through the show to get an up-close look at the vehicles and have an opportunity to speak with car owners and event sponsors.

THE GOALS FOR STUDENT CAREER DAY ARE AS FOLLOWS:

- Expose students to opportunities in the specialty automotive repair and aftermarket industry that SEMA calls a \$34 billion industry.
- Allow students to view the talents of the participants who have handcrafted many of the vehicles participating in the I-X Piston Powered Auto-Rama.
- Provide a forum for students to view firsthand some of North America's finest show vehicles, many of which have been featured in magazines and television programs.
- Allow the schools / students / teams to participate in and be exposed to the Hot Rodders of Tomorrow engine rebuilding competition.
- Provide an opportunity for students to visit with many of the car owners and builders who have painstakingly completed their projects.

SUMMIT RACING EQUIPMENT PEDAL CAR CONTEST

The 2019 show will take place March 15 – 17, 2019 at the I-X Center with a new theme: In 2019 Cleveland continues its reputation as an “All-Star” City. In March, Cleveland will play host to the Summit Racing Equipment Show I-X Piston Powered Auto-Rama where the All Stars are the Cars!!! In July, the Cleveland Indians will host the 90th All-Star Game at Progressive Field! Two All-Star events in one All-Star City!

Qualifying schools will be given one of eight Hot Rod Pedal Cars, P/N EET-9705, from Genuine Hotrod Hardware, Inc., as part of the Summit Racing Pedal Car Contest for their students to customize and show at the I-X Piston Powered Auto-Rama, March 15 – 17, 2019. The object is to create an award winning pedal car, fully finished and painted. Pedal Cars will be shipped to schools on or about October 15, 2018. Schools can pick any one of these themes for this year's contest:

Be creative. Here are some idea starters:

- Auto-Rama: Where the All Stars are the Cars!
- Cleveland: An All Star City!
- Two All-Star events in one All-Star City!
- Baseball's All Star Game in Cleveland!
- Piston Powered All Stars
- All Star Hot Rods
- All Star Motorcycles

Note: Just to clarify: This does NOT have to be a baseball theme. From a legal perspective, we are not authorized to use any marks or images from Major League Baseball and/or the Cleveland Indians.

The only other requirement is that the original drivetrain components must be included. Body style, interior, wheel base and wheels can all be customized. To participate, each school is required to complete and sign the Application Form. Once approved, a Pedal Car will be shipped to the school on or about October 15, 2018. Pedal cars must be complete and ready to display at the 2019 I-X Piston Powered Auto-Rama at the I-X Center on Thursday, March 14, 2019.

A display area will be set up for the eight (8) competing pedal cars, but schools are encouraged to plan for a creative and attractive showing of their project. This could include pictures, video, or other items that will enhance the presentation. Customized pedal cars will be judged by ISCA staff and will be based on creativity, quality of workmanship, overall appearance, attention to detail, and representation of the theme.

Customized pedal cars will be auctioned off on Saturday at the Filling Station during the Saturday Awards Ceremony. Proceeds will be donated to the automotive program at the school that built the pedal car. The winners from 2018 included:

Berea-Midpark High School: **1st Place**
165 E. Bagley Road
Berea, Ohio 44017

AUCTION WINNER: Paul Tschantz
AMOUNT \$230

Euclid High School: **2nd Place**
711 East 222nd Street
Euclid, Ohio 44123

AUCTION WINNER: George Conrad
AMOUNT: \$500

Burton Center for Arts and Technology: **3rd Place**
1760 Boulevard
Salem, VA 24153

AUCTION WINNER: Diane Corrao
AMOUNT \$130

THE HOT RODDERS OF TOMORROW ENGINE CHALLENGE

Hot Rodders of Tomorrow is a STEM (Science, Technology, Engineering, and Math) Team Activity for your High School CTE Class. Teams of 5 High School Students disassemble and reassemble a Small Block Chevy 350 Engine. The event is timed and judged with time penalty applied for mistakes. Any team that qualifies with a time of 33 minutes or faster with time penalties added will be qualified for the 2019 Hot Rodders of Tomorrow Dual Championship at the 2019 SEMA Show (Las Vegas, NV) or 2018 PRI Show (Indianapolis, IN). Hot Rodders of Tomorrow has awarded over \$20 million in scholarship opportunities thanks to our college partners like OTC.

To sign-up go to www.hotroddersoftomorrow.com

There will be 2 days of competitions:

1. Saturday, March 16, 2019 (High School Students)
2. Sunday, March 17, 2019 (High School Students)
