ELECTRICAL SERVICES

- ✦ Electrical lines are placed at the most convenient location to source, usually in center rear of booth. Electrical lines installed and not used are non-refundable. Standard rates apply to all lines ordered after the advance rate deadline.
- ✦ Electrical orders must be specified in terms of amps, volts and watts. To determine electrical requirements, multiply the number of amps by volts per piece of equipment and add these numbers together for total wattage. For example, if total exceeds 2400 watts/120 volts, multiple 120 volt lines are required; 3500 watts requires one 2400 watt service and one 1200 watt service.
- ✦ Power is turned on one hour before show and turned off one hour after show.
